

# Atlas Ex760 M760

The Atlas Ex760 and M760 are rugged, IP68, 2G/3G/LTE-4G/WiFi Android 13 smartphones with a 6.3" screen and **dedicated SOS and PTT buttons**. The Atlas Ex760 is also an EX device for use in ATEX classified areas.

This versatile device provides a **smartphone** and **lone worker protection** with a large, clear 6.3" screen and a physical SOS/PTT button. With its extra loud 2 watt speaker it is also at home in noisy environments.

**True Man Down detection** with pre-warnings through vibration and sound is also included. Detection is based on the angle of the device combined with motion, motion only or angle only. This flexibility helps prevent accidental activation and allows for easy integration into a users common work practice.

**TPA (Time Personal Alert)** check-in feature allows users to activate timers, which if expire, automatically generate an alert. Users can add notes and a GPS location to a TPA which will be provided automatically to responders if the TPA expires. User can easily set the expiry time or use the quick set buttons for 15, 30, 60 and 120 minutes. Timers can also be extended or restarted easily. Up to 4 local reminders are provided and up to 4 reminder SMS messages can also be delivered by the Aspect Link system.

For users working outdoors the integrated **GNSS** provides accurate location in the event of an alert and for users working indoors a combination of **WiFi and Beacon positioning** is also included.

To provide the most reliable alarm activation facilities this combination of rugged smartphone and lone worker app uses Mobile Data, WiFi Data, SMS Messaging and Voice Calls to ensure it gets through.

PTT/PoC can be easily added by using the Atlas PTT app. With a physical or on-screen PTT button and a loud and clear 2W speaker this device provides an effective communications solution.
